## Everything Ends

### **AMaj7**

We've been down so many roads

**G/D**

With friends to lighten up our loads.

**D**

**Dm**

We've been so many places

**E7**

And we've seen so many things.

### **AMaj7**

Sunrise, sunset, nights between,

**G/D**

Friendships that were evergreen,

**D**

Kicking up the traces

**E7sus4**

**E7**

Where everybody sings.

(Chorus)

**D6**

Everything ends someday.

**AMaj7**

Everything ends and that's ok.

**D6**

Playing all the games that we wanted to play

**E7sus4**

**E7**

And we had fun along the way.

**D6**

Even though we might want to stay,

**AMaj7**

We know we're gonna be ok,

**E7sus4**

**E7**

**AMaj7**

**(E7sus4 AMaj7)**

'Cause everything ends - someday.

Counting days and counting years,

Counting joys and counting fears.

Memories stacked higher

Than the mountains we recall.

I know you and you know me

In ways that no one else can see.

Toss a log upon the fire

And watch sparks fly and fall.

(Bridge)

**D**

The more time flies, the more things change,

**AMaj7**

The more we have to rearrange.

**D**

You know that wisdom comes with age.

**E7**

It's time to turn another page.

And so it's time when one thing ends,  
A place we met so many friends,  
Made memories together  
With laughter and with tears,  
And a melody we still recall,  
Laughing, skipping down the hall.  
A pleasant sort of tether  
To bind us cross the years.

(Chorus twice)

**E7sus4**                      **E7**      **AMaj7**

Everything ends - someday.

**E7sus4**                      **E7**      **AMaj7**

Yeah, everything ends - someday.
