**B4** **A5**  
If you had to be alone

**B4** **A5**  
Would you choose a place that's far away from here?

**Aadd9** **Badd11**  
Or maybe in the middle of a crowd  
**Aadd9**

Where no one knows your name

And no one is allowed

**B4** **A5**  
To come near.

If you had to make a change  
Would you want to be somewhere where you're unknown?  
A person that no one would ever ask  
To let another in,  
To see behind the mask  
That they've grown.

If you had to find a way  
To leave behind the things that you have been,  
To be something less than what you really are,  
Would you find another home  
With no one to ask where  
Or ask when?

**Dmadd9** **A5**  
Would your life be much less daunting  
**Dmadd9** **A5**  
In anonymity somewhere?  
**Em** **Dmadd9** **A5**  
Would you find the things you're wanting  
**Em** **Dmadd9** **A5**  
If there's no one left to care?

If you had to go away  
Would you let me know just where it is you've gone  
So I could look you up in the end?  
And maybe if you find  
Someday you need a friend,  
I'll be one.

**B4 A5**

*Every so often, a song sneaks up behind me and mugs me and says, "Here I am!"  
It certainly keeps life interesting.*
