Star Light, Star Bright

(Chorus)
G C/G G
Star light, star bright,
C/G G D
First star that I see tonight,
C/G G
I wish I may and I wish I might
C/G G D G
Have the wish I’m wishing here tonight.

D C/G G
All the planets have gone to hide
C/G G
Round the sun on the other side.
D C/G G
And even Luna has gone away
C/G G D
So all the stars can come out and play.

I wish that I had a place to stand
With someone waiting to hold my hand
And if my wishes should all come true,
The one who’s standing there is you.

(Bridge)
Am7/G Em7
All the wishes that might be ours
C/G G
Are falling down on the light of stars.
Am7/G Em7
Wish together or wish apart,
C/G D
But all our wishes come from the heart.

Lying down, we can count the stars
And all the wishes that might be ours.
One thing that I know is true:
That all my wishes depend on you.

(Chorus twice)
C/G G D G
Have the wish I’m wishing here tonight.
