Conclave

Amaj7 **G**
We've gathered together from one thousand stars,
D **E7**
Here in celebration of all that is ours,
Amaj7 **G**
But our conclave has ended, it's time to depart.
D **E7**
Let's sing one more time and all sing from the heart.

(Chorus)

D **Amaj7**
Each of us human, wherever we roam.
E7 **Amaj7**
Traveling the starlanes on the road to our home.
D **Amaj7**
In life there is love and in love there is life,
D **E7**
So pray for an ending to all of our strife.
D **Amaj7**
Each of us human, wherever we roam.
D **Dm6** **E7** **Amaj7**
Each of us human, no matter our home.

We gather together to speak and to sing,
To ooh and to aah at each shiny new thing.
There are things that I know and things I do not.
Let's toss all our knowledge in one common pot.

(Bridge)

D **Dm6**
I want to know you and you want to know me,
Amaj7
To learn to look past all the things that we see.
D **Dm6**
The feuds of the past are no reason to fight.
E7
Let's look to the future and look to the light.

Each of our stars will continue to burn
When it's time to go home and it's time to return.
Now make one last promise to meet here again
To speak and to sing at this gathering of friends.

(Chorus)

D **Amaj7**
Each of us human, wherever we roam.
D **Dm6** **E7** **Amaj7**
Each of us human, no matter our home.
